Desi Chowrastha

Allergen Statement

At Desi Chowrastha, we prepare authentic South Indian, Hyderabadi, and Indo-Chinese cuisine. Many of our dishes contain, or may come into contact with, common food allergens. This statement is provided to help guests with food allergies or intolerances make informed choices.

If you have a severe allergy, please speak with a member of our staff before ordering.

Allergens present on our menu

- **Milk / Dairy —** Widely used across the menu — paneer dishes (Paneer Tikka, Mutter Paneer, Paneer Pulao), butter- and cream-based curries (Butter Chicken, Dal Makhani), ghee-based items (Ghee Dosa, Ghee Idly, Ghee Karam), lassi, shakes (Badam Milk, Chichoo Shake), and most Indian sweets (Rava Kesari, Rava Laddu).
- **Tree Nuts —** Cashews and almonds are common in gravies, biryanis, sweets, and shakes (e.g. Badam Milk, Rava Laddu, and rich curry bases). Cross-contact is possible across many dishes.
- **Peanuts —** Used in certain chutneys (e.g. peanut chutney) and some preparations. Peanut cross-contact is possible.
- **Gluten / Wheat —** Present in all breads (Naan, Poori), many appetizers and snacks (Samosa, pakoras, puffs, Osmania Biscuits, cookies, Chekkalu), Indo-Chinese dishes with noodles or sauces (Hakka Noodles, Chilli dishes, Manchurian-style items, momos), and anything battered or fried.
- **Soy —** Present in Indo-Chinese dishes (soy sauce in fried rice, Hakka Noodles, chilli and Manchurian preparations) and may appear in cooking oils.
- **Eggs —** Present in egg-based dishes and some breads, batters, and desserts. We offer items specifically containing egg; please ask for the egg-based options.
- **Fish / Shellfish —** Present in seafood dishes (e.g. Apollo Fish, Chilli Fish). These are prepared in a kitchen that also handles other proteins.
- **Mustard & Sesame —** Mustard seeds and sesame are commonly used in South Indian tempering (tadka), spice blends, and some breads.

Cross-contact notice

Our dishes are prepared in a shared kitchen using common equipment, fryers, and surfaces. While we take care in preparation, we cannot guarantee that any item is completely free of a specific allergen, and traces may be present due to shared cooking environments.

Vegetarian / Vegan note

A large portion of our menu is vegetarian. However, "vegetarian" does not mean dairy-free — many vegetarian dishes contain milk, paneer, ghee, or cream. If you require a vegan or dairy-free dish, please ask our staff.

For guests with allergies

Please inform your server of any allergies before ordering. Our team will do their best to guide you to suitable options and, where possible, accommodate modifications. For severe allergies, we recommend exercising caution given our shared-kitchen environment.

This statement describes allergens across the menu at a category level and is not a verified per-dish allergen chart. Recipes and ingredients may change without notice. Guests with severe allergies should always confirm with staff.
