SARAVANAN NATESAN

Principal Cloud & GenAI Solutions Architect

Mobile: 603-892-2665 | Email: saravanan.natesan@gmail.com | LinkedIn: Saravanan Natesan

SUMMARY

Technology architect with 20+ years delivering enterprise solutions across Healthcare, Public Sector, Insurance, Telecom, Banking, and Manufacturing. Expert in cloud-native architecture, monolith-to-cloud migration, application modernization, SOA governance, enterprise integration, and full-stack engineering—from cloud adoption strategy and architecture roadmaps through hands-on delivery—while leading onshore and offshore teams.

CORE SKILLS

AI / GenAI	OpenAI GPT-4o (vision & text), prompt engineering, LLM document extraction & classification, image generation (gpt-image-1), Amazon Bedrock, GitHub Copilot
Cloud / DevOps	AWS, Azure, GCP, OpenShift, Docker, Kubernetes, Terraform, CloudFormation, Jenkins, CI/CD
Languages	Java/JEE, .NET, Node.js, JavaScript/TypeScript, Python, COBOL/CICS, SQL
Web / UI	Angular, ReactJS, GWT, JSF/JSP, HTML5, CSS3, jQuery
Integration	REST, GraphQL, SOA, Microservices, EJB, RMI, WebSocket, Kafka, ActiveMQ, APIGEE, OAuth/OpenID, KeyCloak
Data	Oracle, Postgres, DB2, SQL Server, MySQL, MongoDB, Cassandra, HBase, Elasticsearch
Servers	JBoss, WebLogic, WebSphere, Tomcat, Jetty, IIS, Apache, Undertow

PROFESSIONAL EXPERIENCE

Technology Architect 2026 – 2027
Accenture — TIAA, RKT-Transformation
Design and deliver technology architecture for platform/product engagements; define solutions for performance, capability, and scalability. Serve as SME across teams, drive key decisions, and mentor engineers on Java full-stack delivery.

Integration Architect 2024 – 2026
Accenture — Sanofi, Dupixent Health Cloud
Designed and built integration solutions on Amazon API Gateway and AWS Step Functions with source-to-target mapping; developed integrations in Python and provisioned infrastructure via Terraform; guided the offshore team through delivery.

Application Architect 2022 – 2023
Accenture — Kemper Insurance, App Modernization & Cloud Roadmap
Reviewed and re-architected applications for AWS migration and produced the cloud adoption roadmap and best-practice guidelines.

Scrum Master / Technical Lead 2022 – 2023
Accenture — Liberty Mutual, AO Renewals
Led microservices and API development on AWS Lambda and CDK; facilitated Agile ceremonies and progress metrics across onshore/offshore teams, balancing technical and managerial responsibilities.

Application Architect 2020 – 2022
Accenture — Fannie Mae, Journey to Cloud
Architected, deployed, and supported production microservices (Java, Spring Boot, REST) on AWS (Lambda, S3, Kinesis, ECS, RDS); built Angular/React front ends with Selenium/Cucumber/ATDD automated testing.

Sr. Cloud Architect 2019 – 2020
Accenture — Anthem, Cloud Strategy & Architecture
Architected and delivered the DevOps platform within Anthem's Cloud Strategy & Architecture program; standardized and automated CI/CD pipelines for enterprise services (FTP, user accounts) using Terraform and AWS managed services (Kinesis, SFTP, S3, IAM).

Technology Architect 2013 – 2019
Ericsson — Telecom OSS/BSS
Re-architected monolithic JEE products into microservices with CI/CD; enabled REST/SSO/multi-tenant SaaS on AWS and certification on RedHat/JBoss EAP; integrated Google Maps and ESRI ArcGIS and delivered major new features.

Application Architect 2001 – 2013
Deloitte — Health & Human Services
Modernized legacy/client-server welfare systems into J2EE web applications; introduced SOA and a Document Management System; led development of large-scale welfare programs (Cash, Food Stamps, Child Care, Medicare and others).

EDUCATION & CERTIFICATIONS

Education
M.S., Computer Application
B.S., Computer Science

Certifications
AWS Certified Solutions Architect – Professional
PMP – PMI · ITIL v3 Foundation
