Background

- 20+ years of technology leadership in architecture, project management, and building highly scalable enterprise applications, collaborating with global teams in agile environments.
- Specialization includes Microservices, Containerization, Cloud-Native Applications, Cloud Infrastructure Development, Automation, DevOps, Product Development, Domain-driven Design, Event-driven Design, and Application Development.

Education & Certifications

- MS - Computer Applications
- BS - Computer Science
- AWS Certified Solution Architect - Professional
- Project Management Professional (PMP)

A senior technology strategist and practitioner with decades of experience delivering enterprise technology programs across Finance, Telecom, Banking, DHHS, Human Resources, and IT for marquee clients including TIAA, Sanofi, Liberty Mutual, Fannie Mae, Anthem, FHL Bank, State Government, Ericsson, Accenture, and Deloitte.

Relevant Experience

Technology Architect (Accenture) — RKT Transformation, TIAA, Charlotte, NC [Apr 2026 – Present]

- Design and deliver technology architecture for a platform, product, or engagement.
- Define solutions to meet performance, capability, and scalability needs; serve as SME, collaborating with and managing the team to perform effectively.

Integration Architect (Accenture) — iCare+, Sanofi, Boston [Mar 2024 – Feb 2026]

- Architected and designed the API platform for the iCare+ service on AWS.
- Managed onshore and offshore teams; coached scrum teams and facilitated Agile ceremonies (sprint planning, standups, reviews, PI planning, retrospectives).

Technical Project Manager (Accenture) — ERM Program, Liberty Mutual, NH [May 2021 – May 2023]

- Delivered, on time, the GRS sidecar service enforcing alignment with Liberty Mutual's record retention schedule.
- Led onshore/offshore teams and facilitated the full set of Agile ceremonies.

AWS Lead (Accenture) — Cloud Acceleration Program, Fannie Mae, VA [Mar 2020 – May 2021]

- Delivered cloud migration/modernization programs for Multi-Family projects on time.
- Re-platformed, refactored, re-architected, and containerized on-prem web apps using AWS managed services; transformed legacy online/batch apps into cloud-native serverless applications.

Sr. Cloud Architect (Accenture) — Cloud Strategy & Architecture, Anthem, Atlanta [Sep 2019 – Mar 2020]

- Architected and delivered the DevOps platform within Anthem's Cloud Strategy & Architecture program.
- Standardized and automated CI/CD pipelines for enterprise services (FTP, user accounts) with Terraform and AWS managed services (Kinesis, SFTP, S3, IAM).

Sr. Software Architect (Ericsson) — EAI (OSS/BSS) Modernization, North America [Sep 2013 – Aug 2019]

- Modernized the legacy monolithic EAI (Ericsson Adaptive Inventory) product into SaaS market offerings; led initiatives to build and enhance features.
- Enabled clients to save millions in licensing fees by complementing JEE products with an open-source stack.

Solution Architect (Deloitte Consulting) — DHHS, State Government, USA [Apr 2001 – Aug 2013]

- Engineered and modernized Welfare systems for the State of New Hampshire delivering state-sponsored programs (Cash, Food Stamps, Child Care, Medicare and others).
